Muhammad Zahid Hussain

Front-End Developer/Next.js/React.js

+923007723819 ◇ inbox.zahidhussain@gmail.com ◇ Saddar, Cantt, Lahore, Punjab, Pakistan ◇ LinkedIn ◇ Portfolio

SUMMARY

Frontend developer (React/Next.js) who uses rapid prototyping and reusable component design to accelerate feature delivery and improve frontend performance.

WORK EXPERIENCE

Frontend Developer Oct '21 — Jan '23
Databeys Multan

- Faced inconsistent UI across devices and built responsive web applications to improve usability and accessibility.
- Converted UI/UX wireframes into reusable, interactive components that improved development speed and design consistency.
- Translated stakeholder feedback into refined UI elements and animations, delivering a more polished user experience.
- Accelerated component delivery by creating reusable component patterns and automating scaffolding with internal tooling.

Frontend Developer Feb '23 — Present
Zonic Solutions Lahore, Pakistan

- Addressed maintainability needs by implementing core React patterns (components, hooks, state) to create a modular frontend architecture.
- Integrated React Router, Material UI, and Axios to implement user flows and streamline API interactions for faster feature delivery.
- Applied code splitting and lazy loading to improve perceived performance and reduce initial load burden for users.
- Automated repetitive tasks and component scaffolding using internal scripts and patterns to accelerate development cycles.

EDUCATION

MCS in Computer Science, COMSATS University Islamabad Sep '17 — Sep '19

PROJECTS

DataBeys Link Oct '21 — Feb '22

- company website built with HTML, CSS, JavaScript, and Bootstrap to showcase CRM integration, web/mobile development, SEO, and marketing services.

Insider Migrations Link Apr '22 — Feb '23

- Consultation site built with HTML, CSS, and JavaScript to guide users through tourism, work, study, and business visa processes.
- Applied WindSurf-assisted prototyping to generate form layouts and speed content iterations.

Wisdome Link Mar '23 — Dec '24

- MERN-stack education platform connecting admins, partners, and members with courses, challenges, content library, collaboration, and events.
- Used Codex to scaffold API routes and automate repetitive backend patterns during development.

Catch You There Link Jan '25 — Present

- responsive travel booking platform built with Next.js and Material UI for browsing and booking hotels and resorts.
- Employed Claude Code for vibe coding to generate reusable UI fragments and speed front-end iterations.

SKILLS

Web Development Next.js, React.js, Framer Motion, Javascript, HTML, CSS, SCSS/SASS, Tailwind CSS, React Bootstrap, Material UI, Redux, TypeScript
Version Control Git, Github
Design Principles Responsive Design, Browser Developer Tools
Project Management JIRA, Trello, ClickUp
AI tools & workflow Windsurf, Claude Code, Prompt engineering, AI-assisted prototyping
Languages Urdu, English
